Strategic Ground Equipment

Working Group Update

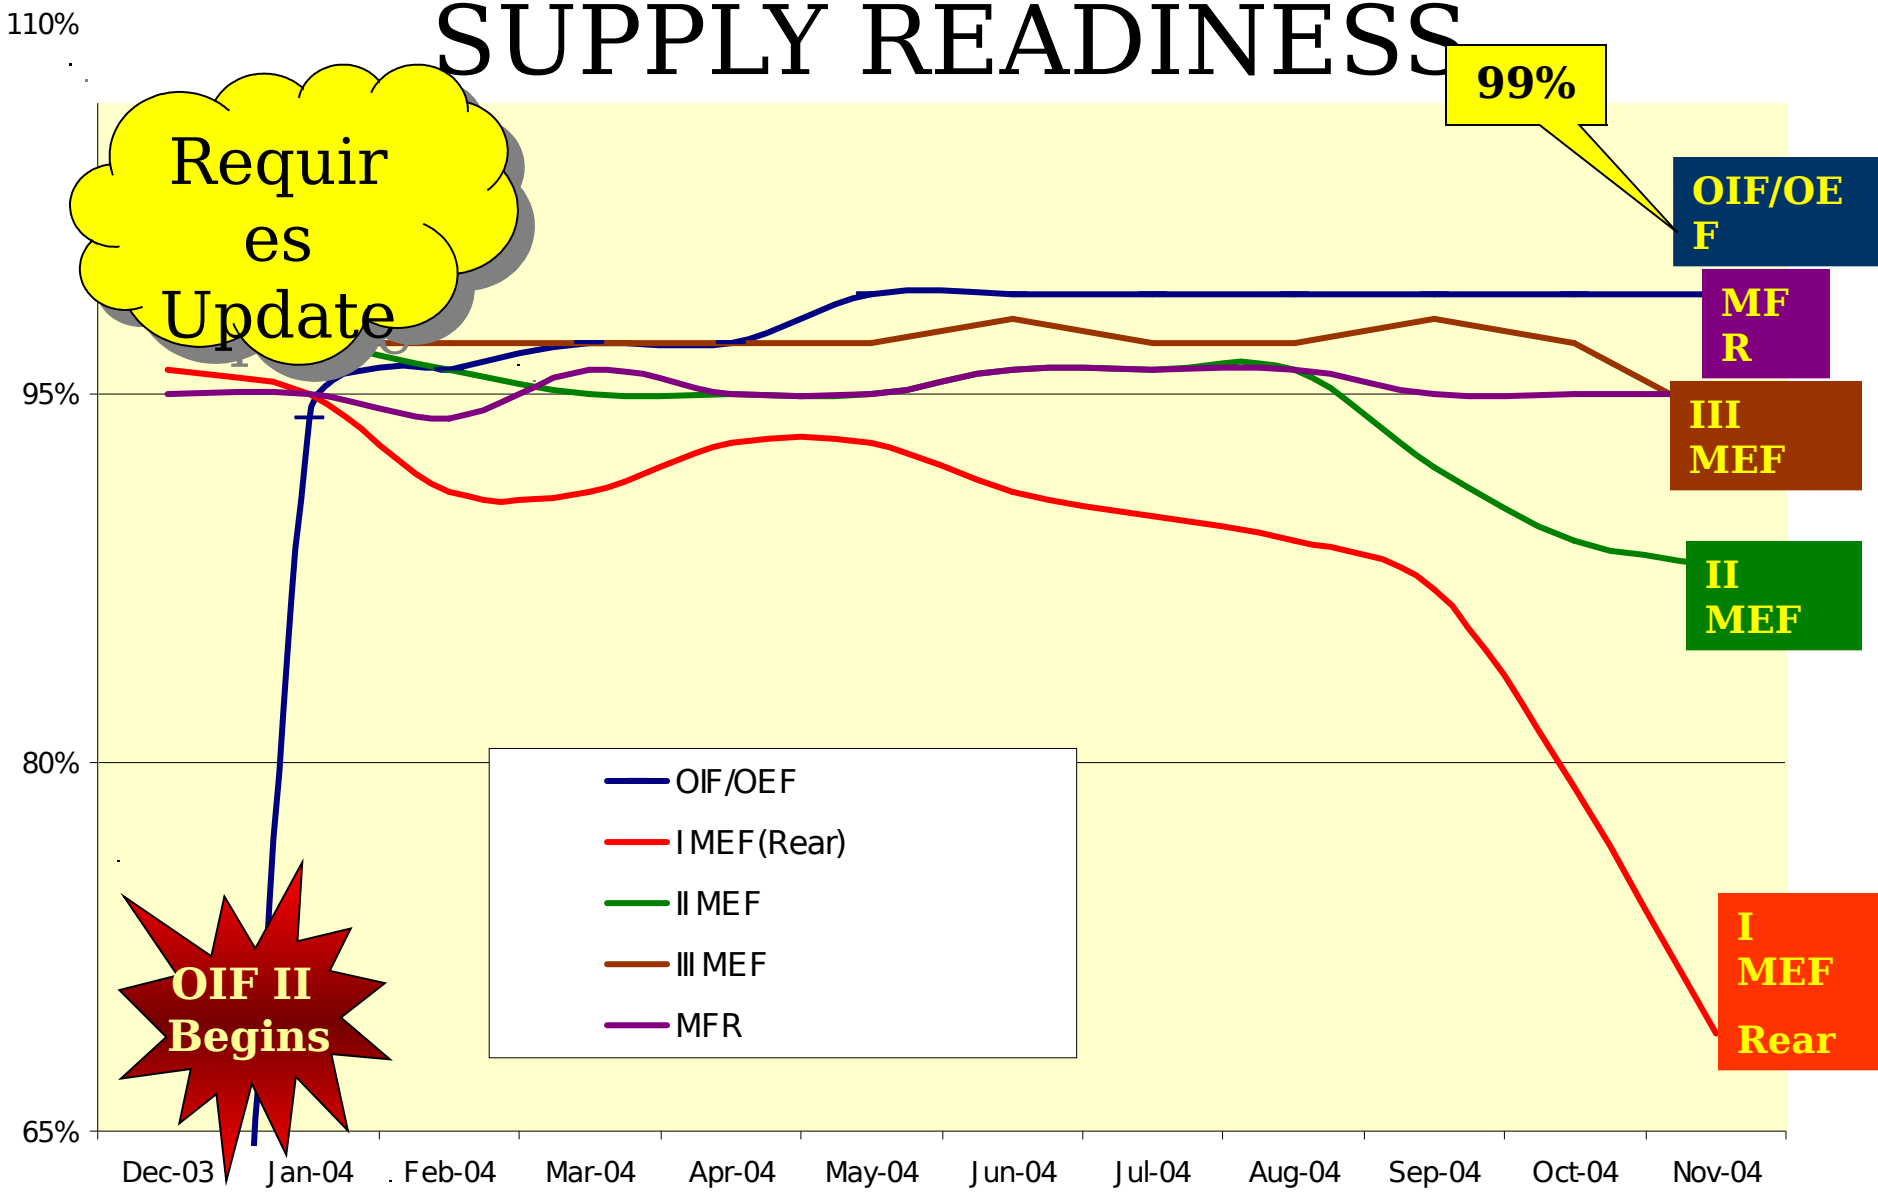
CSSE Advocacy Board

01 Feb 05

Agenda

- **Ground Equipment Supply Readiness Posture**
- **Home Station Equipment Posture**
  - **Near-term Strategy**
  - **Mid-term Strategy**
- **In Theater Equipment Posture**
- **Way Ahead**

GROUND EQUIPMENT POSTURE SUPPLY READINESS



Home Station Equipment Posture

HOME STATION EQUIPMENT MANAGEMENT

- **Business Rules for Corps-wide cross leveling of critical equipment:**

Priority One unit - Deployment date within six months.

- Goal - Equip to 90% of T/E (AC) and 100% T/A (RC).

Priority Two unit - Deployment greater than six months out.

- Goal - Equip to 75% T/E (AC) and 85% T/A (RC).

- **Corps-wide cross leveling actions and estimated completion dates:**

- Intra MARFOR Cross leveling of critical equipment:

- III MEF to I MEF - 15 Jan 05.

Home Station Equipment Posture

HOME STATION EQUIPMENT MANAGEMENT

➢ **Continued Cross Leveling Actions and estimated dates of completion:**

- Strategic Programs to MARFORs:

- LOGCOM In-Stores Ready-for-issue to MARFORS -

Requires Update

- MPS-2 to I and II MEF - 30 Jan 05.

- Norway to I and II MEF – Pending Transportation.

➢ **Redistribution of excess equipment from theater**

- Pending MARCENT validation of excess equipment

➢ **Determine feasibility of required equipment for release In-Stores that is not ready for issue.**

- Adjust Master Work Schedule.

In-Theater Equipment Posture

IN-THEATER EQUIPMENT MANAGEMENT

- **Establish a MARCENT Equipment Density List (EDL)**
  - MARCENT EDL Validated (MARCENT P4 292139Z Nov 04)
- **Establish a Forward In-Stores (FIS) – 24 TAMCNs – 141 PEIs**
  - DC I&L Execute Order to LOGCOM (DC I&L 211112Z DEC 04).
  - FIS Location TQ
  - IOC Jan 05 / FOC Mar 05
- **Expand In-Theater Maintenance.**
  - MCSC, LOGCOM Coordination with Army Material Command
    - 14 TAMCNs can be supported in theater at AMC TQ

In-Theater Equipment Posture

IN-THEATER EQUIPMENT MANAGEMENT

- **Excess Equipment**
  - LOGCOM to assist MARCENT in the retrograde of excess equipment.
    - Assist in load and data collection
    - Assist at four sites in IZ for containerization/level VI detail data
  - Initial CONOPs
    - Maximize containerization
    - All excess equipment retrograded through BIC for onward movement
      - Reduces transportation time
      - Equipment Off-load/Maintenance/QA done by contractors vice Marines
    - PEIs distributed as required through the ESG

Way Ahead

- **MARFORs continue to cross level IAW Business Rules.**
- **MARCENT redeploy excess equipment ASAP.**
- **LOGCOM manage redeployment and redistribution of PEIs.**
- **Apply FY 05 Supplemental where appropriate.**
- **LOGCOM fix not ready for issue equipment and adjust Master Work Schedule.**
- **SYSCOM/LOGCOM develop PEI rotation plan that supports sustaining OIF/OEF.**

BACKUP SLIDES

SGEWG Background

- **Executive Steering Group**
  - I&L / PP&O
  - Chaired by LP/PO/MCSC
- **Members**
  - MFP (BIC)

MFP	MCSC	LOGCOM	
MFL	MFE	MCCDC	MARCENT

- **Charter established 16 Sep 04**

Mission. The SGEWG will focus on the realignment of equipment to support near term operational and service unique requirements. The desired end state is a comprehensive, executable strategic equipment strategy that ensures the Marine Corps can rapidly respond to emerging requirements.

Home Station Equipment Posture
